

Trust in ASC

Your Reliable Partner for Recording and AI

ASC is a leader in communications recording and AI data analytics, boasting over 60 years of innovation. Our extensive experience ensures that we provide outstanding solutions tailored to meet the evolving needs of modern enterprises.

Why Choose ASC Solutions?

Here are **five reasons** why you should switch to an ASC Solution for your recording needs.

1

True Omni-Channel Recording

ASC Solutions capture all communications. Whether it's calls, meetings, screen sharing, video, or chat, our solutions ensure comprehensive recording and archiving. This capability is crucial for maintaining thorough records and ensuring compliance.

2

Latest AI Data Analytics Tools

By integrating advanced AI services like Azure AI, OpenAI, and CoPilot, ASC Solutions offer powerful tools for transcription, translation, and analytics. These tools transform raw data into actionable insights, helping businesses to improve operations and decision-making processes.

3

Real Enterprise Grade Solution

Our solutions are designed for true multi-tenancy and global scalability. With the ability to bring your own keys and storage, ASC ensures that your data is secure and managed according to your preferences. This flexibility is essential for large enterprises with complex data management needs.

4

Fast & Easy Deployment

Onboarding can be completed in less than a day, and we offer effortless migration of third-party recordings. This efficiency minimizes downtime and ensures a smooth transition to our systems.

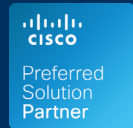

5

Global Customer Support

Our customer and partner-oriented support is available 24/7 globally. ASC is committed to providing continuous assistance, ensuring that your operations run smoothly at all times.

Certified Partner and Highest Standards

We enable our customers to meet their compliance requirements, offer an enhanced customer experience and protect people and property by providing omni-channel recording and AI data analytics.

What our customers and partners say

“With ASC Recording Insights, Microsoft Teams users can comply with complex regulatory requirements regarding recording and archiving ‘with just one click’ within Teams.”

Mike Ammerlaan
Director of Microsoft 365 Ecosystem Marketing, our partner Microsoft

“Recording Insights demonstrates what is possible in the modern-day technical landscape. It can be rightly described as the next generation solution.”

Brian Fruh
CIO, Impax Asset Management

About ASC Technologies

ASC is a worldwide leading provider of software and cloud solutions in the field of omni-channel recording, quality management, and analytics. Among our target groups are all companies that record their communications, especially financial service providers, contact centers, and public safety organizations. We offer solutions for recording as well as AI-based analysis and evaluation of all communications – with full flexibility as a cloud service, on-premise or as a hybrid solution. Headquartered in Germany with subsidiaries in 14 countries and experienced system integration partners in over 60 countries, ASC is the #1 Europe-based player in its industry.
