

BROCHURE

Future-proof communication starts with the right platform

The proven migration path from **Red Box Quantify** to **Mitel Interaction Recording** powered by ASC with no data loss and no operational disruption.

turning communication into trust

Why organisations choose Mitel Interaction Recording powered by ASC

01 Existing recordings preserved

Native integration with leading cloud and communication platforms.

02 Unbroken evidential integrity

A complete Chain of Custody is maintained. Every recording remains traceable, tamper-proof, and admissible as evidence.

03 Modern compliance platform

Meets regulatory requirements including DORA, NIS2, MiFID II, and GDPR on an actively maintained and constantly enhanced platform.

04 Long-term future-readiness

Recording, archiving, compliance monitoring, and AI-powered analytics on a platform that is continuously developed further.

Organisations need to act now

The requirements for modern communication platforms are evolving rapidly. At the same time, AI is creating entirely new opportunities for analysis, automation and operational efficiency. Organisations need to ensure today that their platform strategy is ready for future requirements and backed by a trusted long-term partner.

ASC Technologies – proven in the market

- ✓ More than 2,500 organisations worldwide rely on Mitel Interaction Recording powered by ASC.
- ✓ Including hundreds of Public Safety and Command & Control organisations operating some of the world's most demanding communication environments.
- ✓ Already >120 successful migrations from Red Box to ASC
- ✓ 60+ years of recording expertise
- ✓ Long-term in-country support through established service and support teams worldwide

ABOUT ASC TECHNOLOGIES

ASC turns communication into trust. In a world of growing regulatory complexity, ASC ensures that digital interactions are secure, reliable, and come with full audit-trails. The integrated platform for communication compliance captures and analyzes communication data, providing a centralized view across all media. Companies gain control over their communications, identify risks early on, and make evidence-based decisions. This is not just about innovation, but about responsibility. With headquarters in Germany, subsidiaries in 15 locations, and partners in over 60 countries, ASC is a leading provider of communication governance in Europe and worldwide. ASC protects what is most valuable to companies: their customers' trust.
